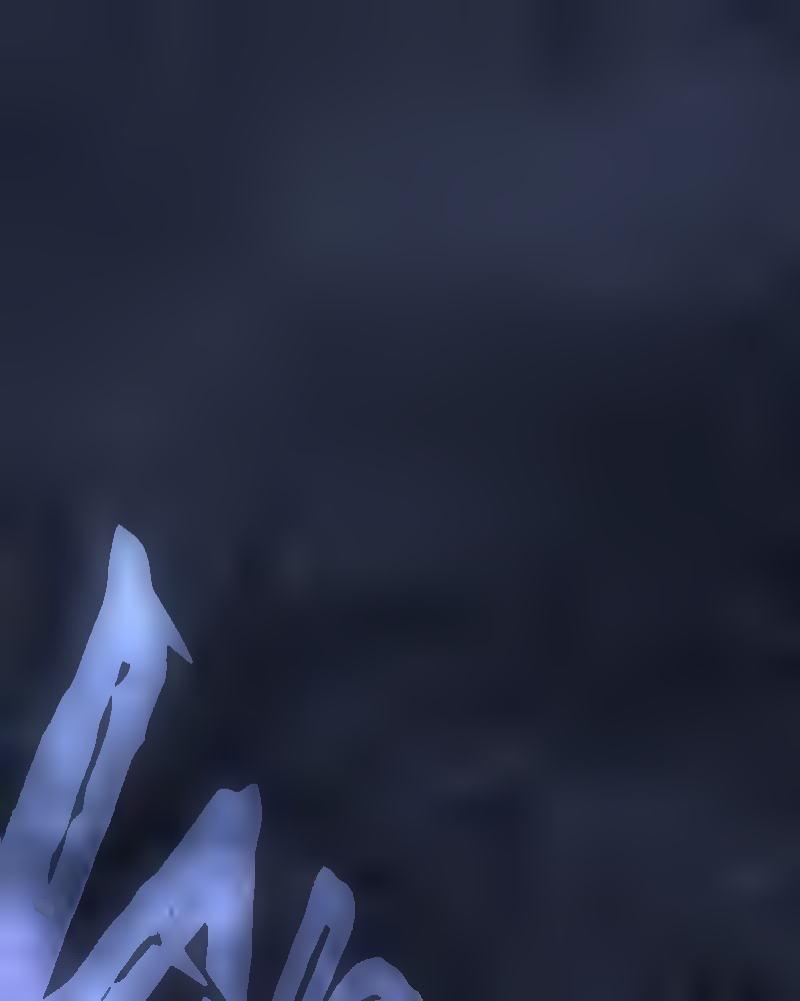
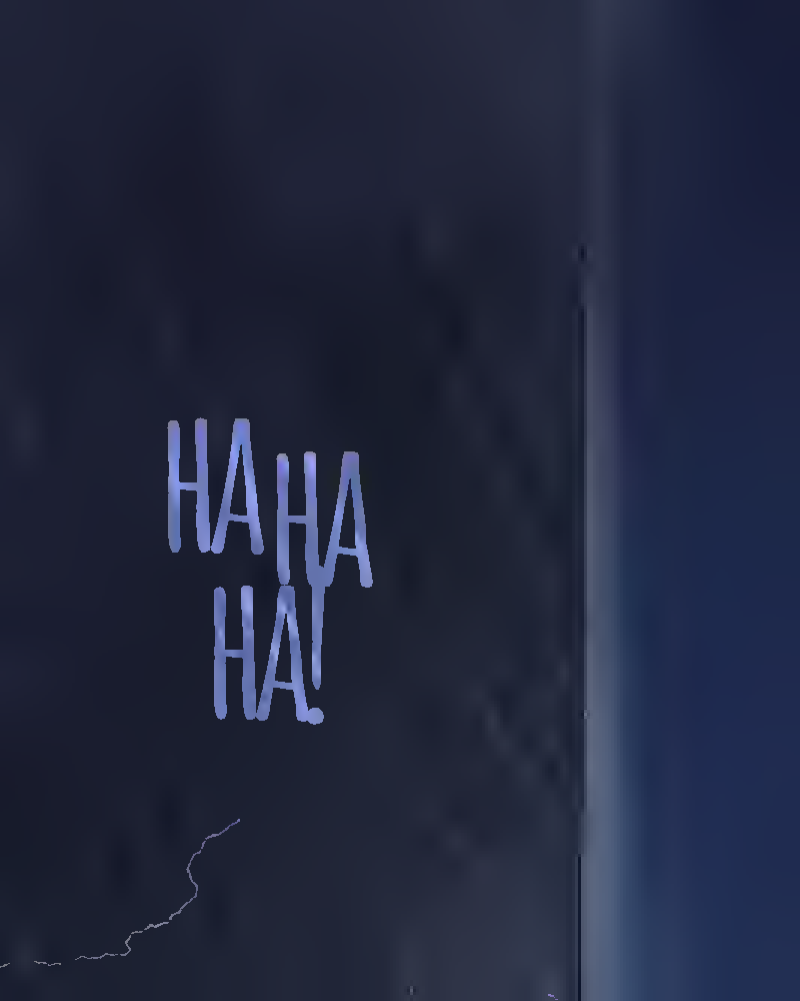
Laughing With The Storm





HA HA
HA!

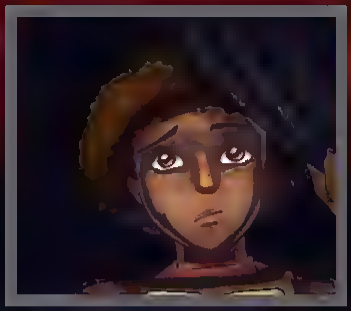
BUHAHA HAHA!

HAAAAAAAA
HAHAHA!
CCCRRRKKKKK!

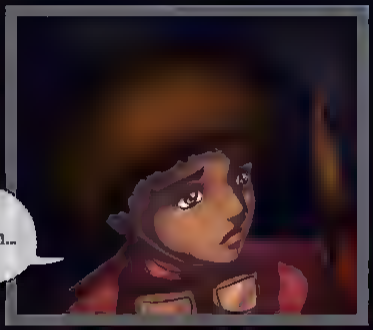
BUHAHA
HAHAHA
HA

Flo, what's up with Bebo?
He's talking and laughing to himself.
Maybe he lost it?

He's probably talking to Red.
Buhahaha! You're kidding me! So what



happened next?



Man...

Rhea's been asleep since we got here.

I hope she's alright.

Yeah... how can she sleep through this storm?
She must be *really* tired.

On the ride out here, she told me she became colorblind after her eyeD got deactivated.
What?!
Will it go back to normal?
I don't know.
The fact that she survived a deactivation is already a miracle in itself.

DRIP DRIP
Bebo can help her.
He's a master alchemist. Anything is possible for him... *right?*

Or
Rhea could heal her eyes with her voice.
So true,

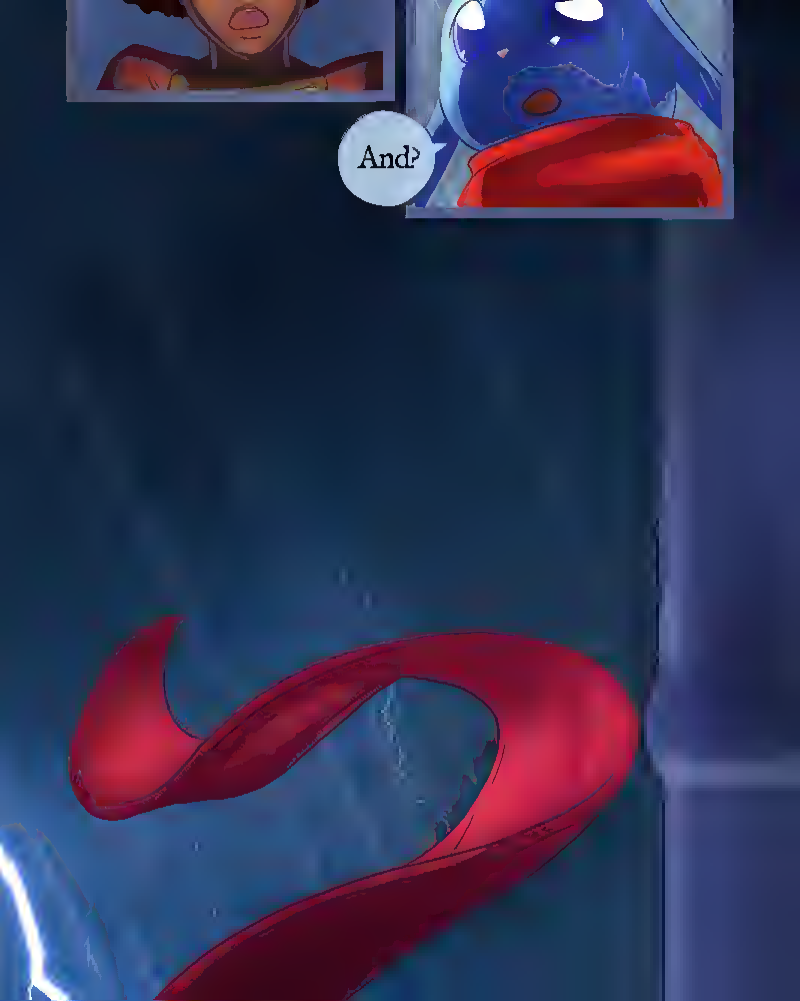
at this point, anything is possible.
I still can't get over how Rhea's an alien.
BAMM
Like Bebo said, we're all aliens.

BEBO!
Come here!
It's
dangerous!

PLIP PAP PAPPLIP PLIP

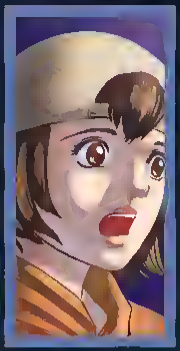
Huh?

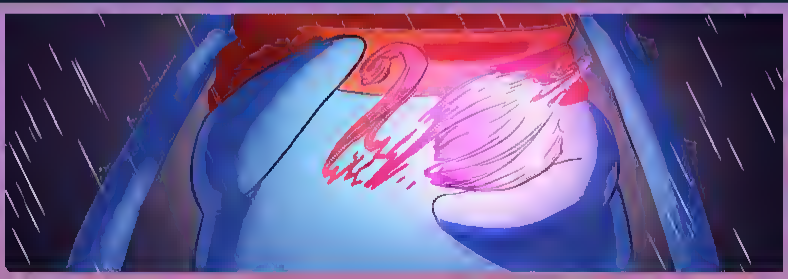
Sorry, I was talking to the storm.
What's dangerous?
You can get struck by lightning!



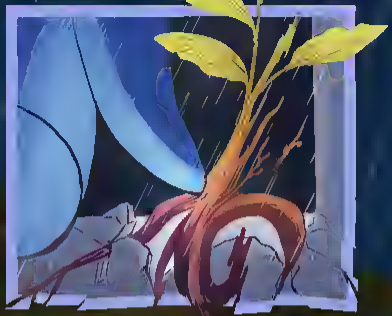
And?

Everything has energy.





Everything has polarities.
VRRRRRRRR
They can be used to either create...



CRACK

CRRR

or...

...destroy.

Rhea's awake!

Bebo's blowing up the sky!
What a crazy dream.

Are you feeling better?
Can you see any colors?

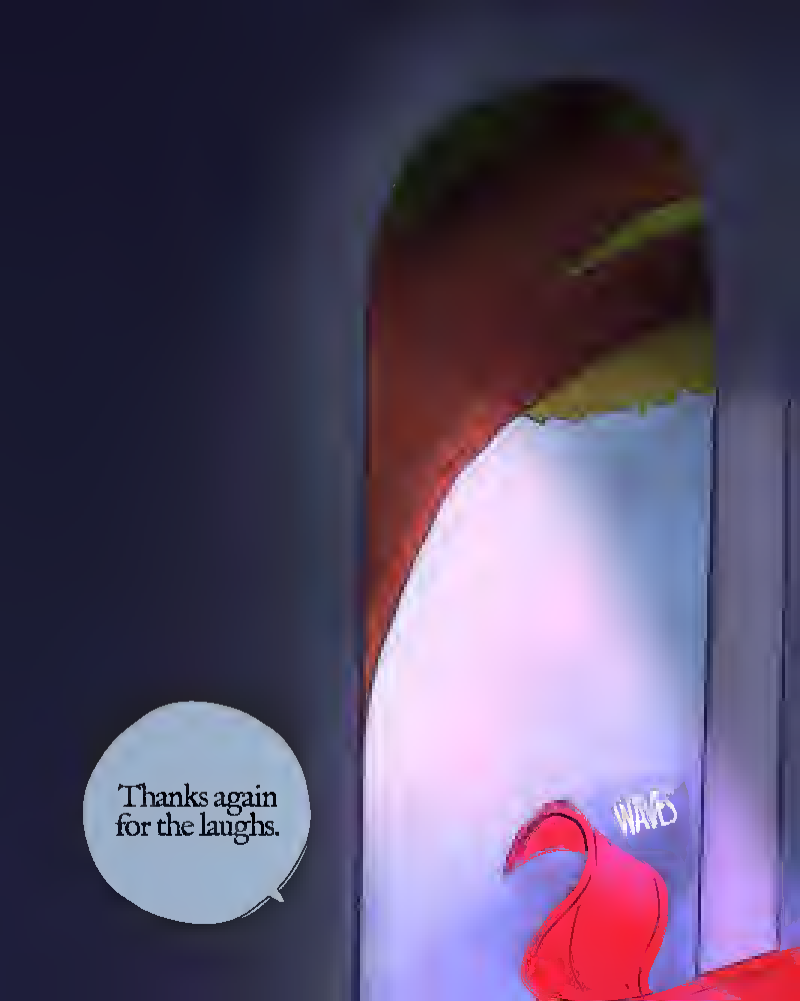
No.
sigh...
...so that wasn't a dream.

HAHAHAHAHAHAHA
HAHAHAHAHAHAHA
Whoa... was this tree always here?

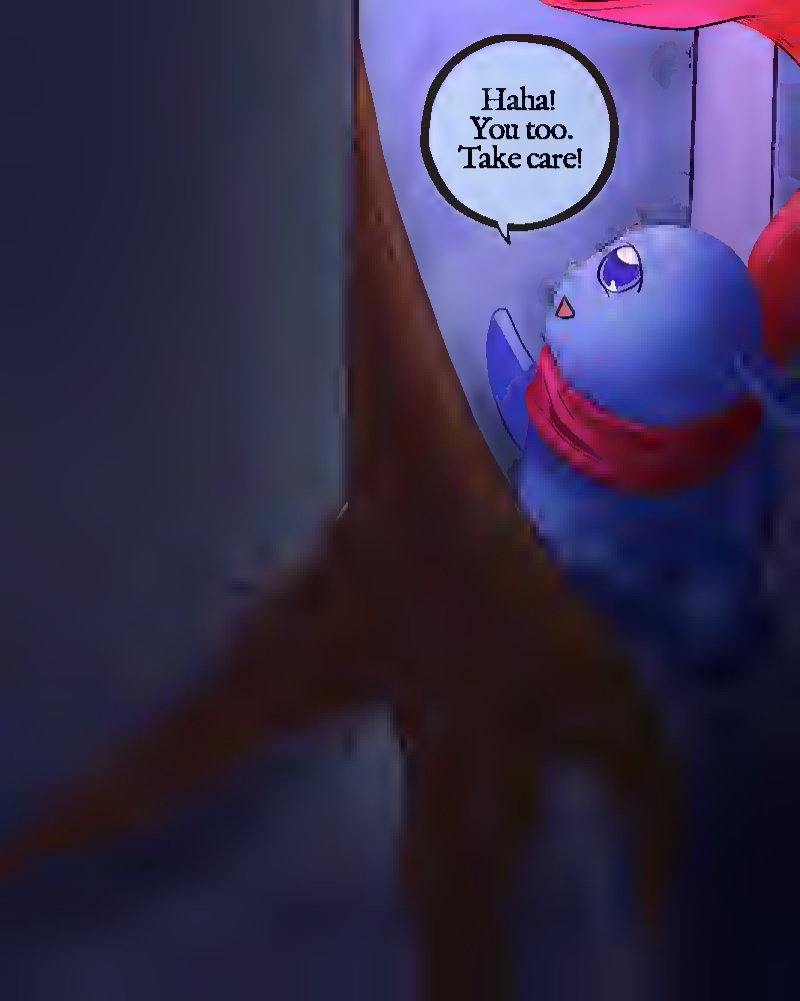
HAHAHA!
Bebo made it with lightning energy and stuff.
Bebo?
haha! Yeah?

I'd love to hear more about Zeru.
My parents?
Who I am?
Yeah, but give me a sec.

HEY!
Yeah, I'm calling it a night too.

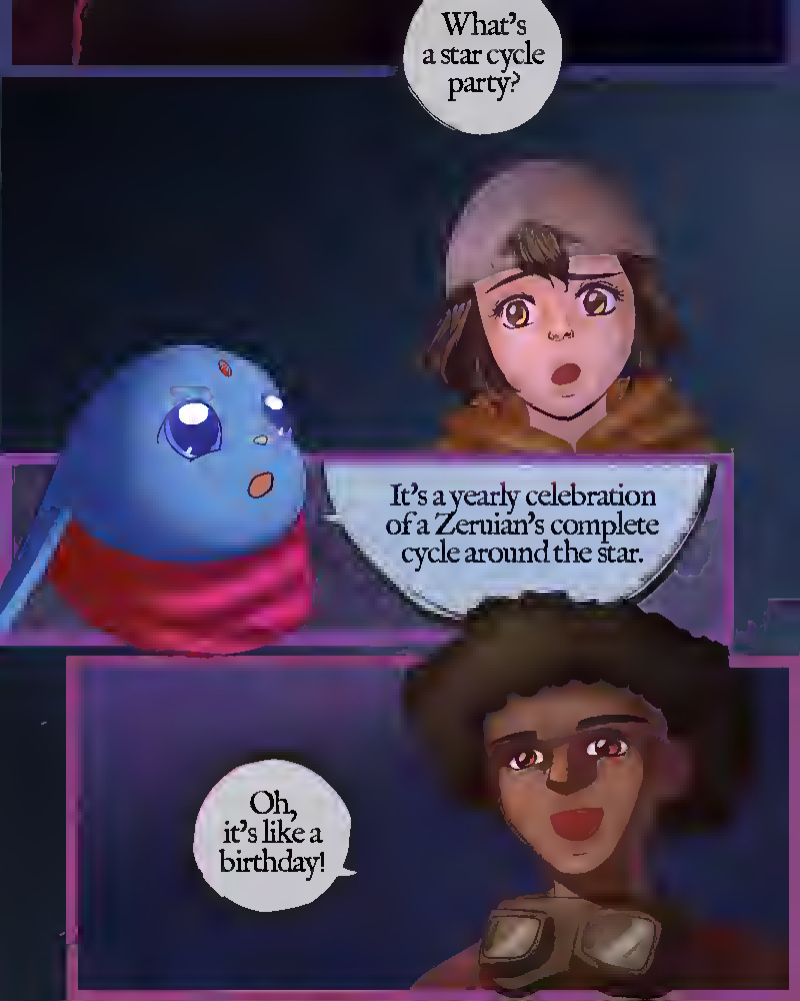


Thanks again for the laughs.
WAVE



Haha!
You too.
Take care!

Alright.
Where to begin... so before Earth, I was on Zeru catching up with an old friend.
When we crashed a star cycle party, that's when we saw...



What's a star cycle party?
It's a yearly celebration of a Zeruian's complete cycle around the star.
Oh, it's like a birthday!

STAR
Hmmm... not exactly.
They don't celebrate the date of their birth.
They celebrate their completed rotation around their star.

Zeruians honor the law of cycles.
What about my parents?
Who were they?
What's my real name?

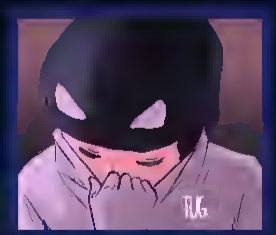
I never knew your parents.
When I saw them, they had already passed...

Passed?
Your parents were crushed under fallen crystal debris.
They were too far gone for even the Enchantress to revive.

Sorry Rhea, I don't know your real name.
Bebo?
What happened on

Zeru?

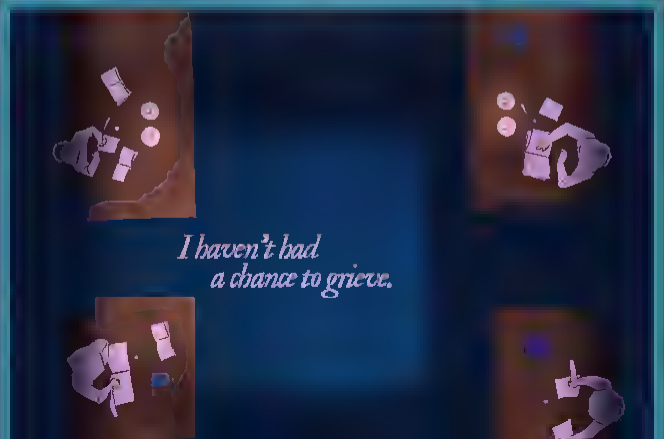
Welcome
back Rhea.



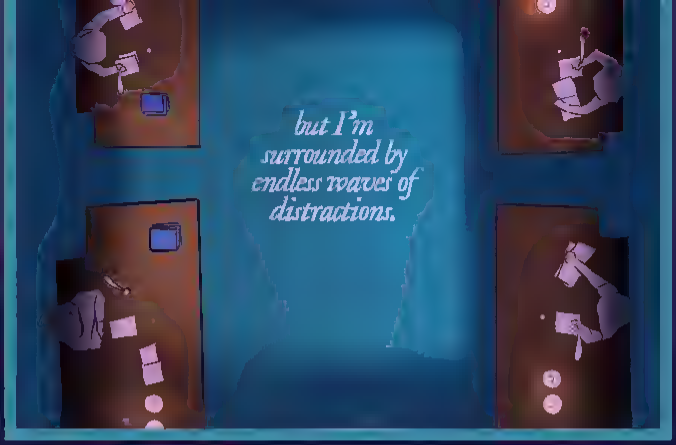
There is someone who'd like to see you.
Please follow us.

sigh

Can't a girl
have a moment?



It's like I'm being tormented.
I have right next to me, the truth to all my questions...



I need to talk to Bebo alone.

I'll do it after this.

Dude... *creepy* vibes.
Shhhh. It's cool. Bebo's here.

Does the sound of writing frighten you?
These scribes are the sons and daughters of light.
As philologist and record keepers, their time is dedicated to studying, retaining,
and preserving knowledge from the ancient past.

I never introduced myself. My name is Eva.
That's my Mom's name too.

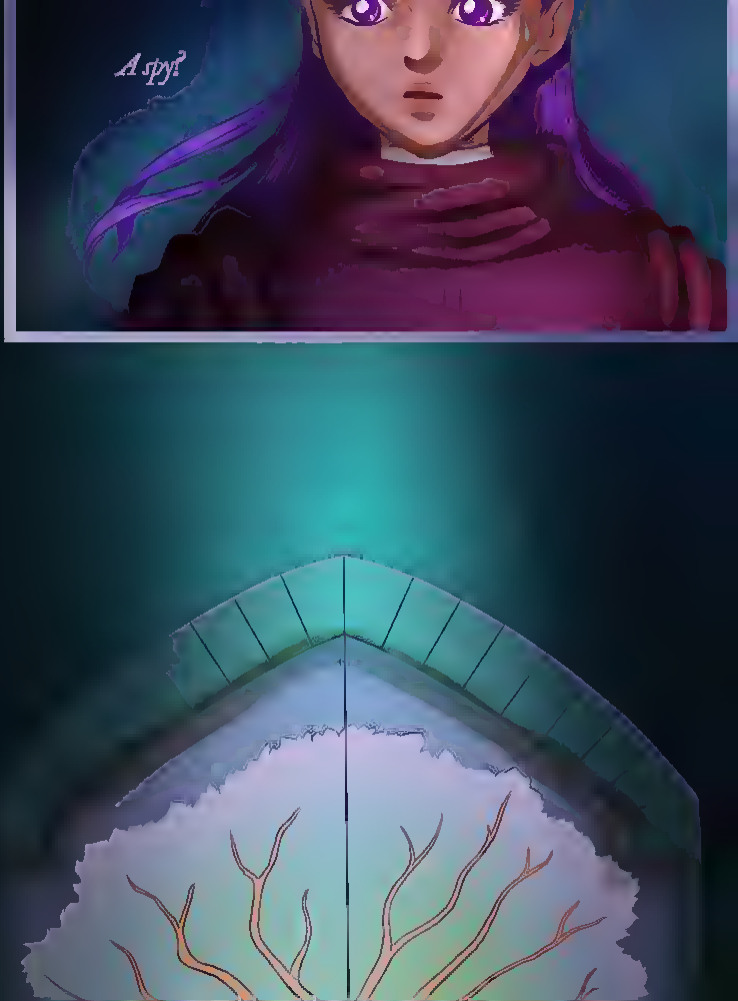
Hi, I'm Ouza!
I'm Luka!

Nice to meet you all! I'm Flo.
And I'm Bailey.
This is Jet. Sorry, he's a little shy.
Nice helmet Jet!

Thank you.
Bebo... could we continue our conversion later? Just us?

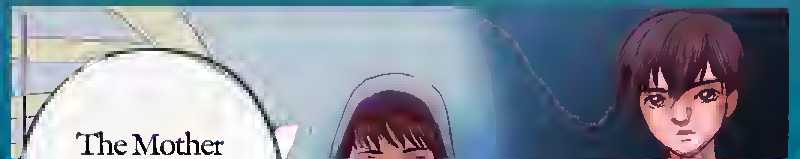
Mmhmm!
Hi! You must be Bebo!
Kazu told us about you and your scarf. So cool!

It's good that Kazu doesn't think you're a spy anymore.



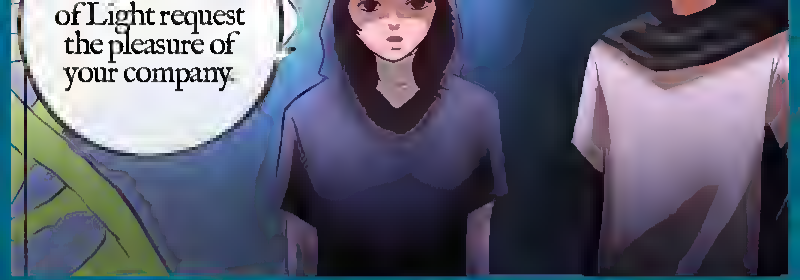
A spy?

Ava? Where are we going again?



The Mother

of Light request the pleasure of your company.



Welcome...
...to Zerzura.
